

TINTSWALO MARIVATE

SOFTWARE ENGINEER

 Centurion, Gauteng |  063 361 1413 |  Marivate.tk@gmail.com | Portfolio

PROFILE

Results driven Software Engineer with experience designing, developing, and deploying scalable web and cross platform applications using Java, Python, JavaScript, TypeScript, Dart, Flutter, React.js, Node.js, and Django. Skilled in building and integrating RESTful APIs, developing responsive user interfaces, optimizing relational and NoSQL databases, and implementing CI/CD pipelines using Azure DevOps, Docker, and cloud platforms including Microsoft Azure. Experienced working in Agile/Scrum environments, collaborating with cross-functional teams, and delivering secure, high quality software solutions. Passionate about solving complex technical challenges and contributing to innovative, enterprise scale applications.

EDUCATION

AVG 4.0 GPA
Distinction

Diploma – Software Engineering

Level 1 – Complete 2025 November

Level 2 (final) – Complete 2026 November

Creative & Technology Universitas

4.0 GPA
Distinction

IT Systems Development

Complete 2024 November

Creative & Technology Universitas

EXPERIENCE

COAST IT

June 2026 – Present

SOFTWARE ENGINEER

6 Month contract

- Engineered and delivered cross platform application features using Flutter and Dart, enhancing usability, performance, and user experience across mobile and web platforms.
- Architected seamless integrations with Firebase, REST APIs, and JSON services, enabling reliable data synchronization and application functionality.
- Optimized application quality through comprehensive testing, debugging, and performance tuning using Android Studio, Visual Studio Code, and Postman.
- Collaborated within an Agile development team, leveraging Git and GitHub to deliver high-quality, maintainable code through structured version control and code reviews.
- Participated in Agile/Scrum development activities, including sprint planning, daily stand-ups, and task tracking.

COAST IT

June 2025 – October 2025

SOFTWARE ENGINEER

6 Month contract

- Designed and developed core modules for a library management system using Python, Django, and SQL,

streamlining business operations and improving data management.

- Engineered robust backend services and optimized relational database performance, ensuring data accuracy, integrity, and system reliability.
- Developed and integrated secure REST APIs, enabling efficient communication between application layers and external services.
- Automated application delivery by implementing Docker containerization and CI/CD pipelines while deploying solutions on Microsoft Azure.
- Collaborated in an Agile environment using Git and GitHub, contributing to high-quality software delivery through testing, debugging, and continuous improvement.

SOFTWARE TECHNOLOGIES

June 2024 – October 2024

SYSTEMS DEVELOPER

6 Month contract

- Engineered scalable enterprise applications using Python, Django, React.js, and Node.js, delivering high performance software solutions aligned with business requirements.
- Designed and optimized REST APIs and relational databases using PostgreSQL and MySQL, improving system efficiency and data consistency.
- Developed responsive frontend interfaces and robust backend services, emphasizing scalability, maintainability, and clean software architecture.
- Accelerated software delivery by implementing automated CI/CD pipelines with Azure DevOps and Docker, reducing deployment complexity and improving release reliability.
- Partnered with cross-functional teams in an Agile environment, utilizing Git, GitHub, testing, debugging, and code reviews to deliver production-ready software.

SKILLS & COMPETENCIES

Programming Languages:	Java 10, Python, JavaScript (ES6+), TypeScript, SQL, PHP
Frontend:	React.js, Next.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Framer Motion
Backend:	Node.js, Django, Flask, Spring Boot
Databases:	MongoDB, PostgreSQL, MySQL, SQL Server, Supabase
DevOps & Cloud:	Azure, AWS, Docker, Git
APIs & Tools:	RESTful APIs, GraphQL, Resend (Email API), Git, GitHub
Testing & CMS:	Jest, Strapi, Test-Driven Development (TDD)
Build Tools & Architecture:	Maven, Ant, Gradle, Microservices, IoC , Serverless

CERTIFICATIONS

Pearson VUE	IT Specialist JavaScript
Pearson VUE	IT Specialist HTML & CSS
Microsoft	Azure Data Fundamentals
Microsoft	Developing Solutions for Microsoft Azure
Microsoft	Implement Secure Azure Solutions
Microsoft	Developing Solutions for Microsoft Azure
Microsoft	Implement API Management
Cisco	Python Essentials 1
