TINTSWALO MARIVATE

SOFTWARE ENGINEER

LOCATION	PHONE	EMAIL	PORTFOLIO
CENTURION, GAUTENG	063 361 1413	TK.MARIVATE@GMAIL.COM	MARIVATE.APP

PROFILE

Software Engineer with experience designing and delivering scalable web, cloud, and cross-platform applications using Java, Python, JavaScript, TypeScript, Flutter, React.js, Node.js, and Django. Proven ability to build enterprise-grade software, develop RESTful APIs, optimize databases, and implement CI/CD pipelines on Microsoft Azure using Docker and Azure DevOps. Experienced in Agile software development, cloud-native architectures, and modern software engineering practices with a strong focus on performance, maintainability, and user experience.

EXPERIENCE

Software Engineer

JUNE 2025 – PRESENT

COAST IT

- Designed, developed, and deployed over 12 production-ready Flutter features using Dart, Provider state management, and REST API integration, improving application responsiveness by 35%.
- Integrated Firebase Authentication, Cloudflare, RESTful APIs, and JSON-based services to enable secure, real-time synchronization for over 10,000 daily user transactions.
- Optimized overall application quality through comprehensive testing, debugging, and performance tuning using Android Studio, VS Code, and Postman, cutting post-release bugs by 25%.
- Collaborated within an Agile development team leveraging Git and GitHub to deliver production-ready code through structured version control and code reviews, maintaining a 98% on-time sprint completion rate.
- Participated in Agile/Scrum development activities, including sprint planning and daily stand-ups, improving sprint velocity and task-tracking accuracy.

Systems Developer

JUNE 2024 – NOVEMBER 2024

SOFTWAVE TECHNOLOGIES

- Engineered scalable enterprise applications using Python, Django, React.js, and Node.js, delivering high-performance software solutions aligned with business requirements.
- Designed and optimized REST APIs and relational databases using PostgreSQL and MySQL, achieving a 20% decrease in server-side data retrieval latencies and improving consistency.
- Developed modular frontend components and scalable backend microservices following MVC architecture and RESTful design principles.
- Accelerated software delivery by implementing automated CI/CD pipelines with Azure DevOps and Docker, reducing deployment complexity and maintaining a 99.9% build success rate.
- Partnered with cross-functional teams in an Agile environment, utilizing Git, GitHub, testing, debugging, and code reviews to deliver zero-defect software features.

EDUCATION

Diploma in Software Engineering
CREATIVE & TECHNOLOGY UNIVERSITAS
COMPLETE NOVEMBER 2026
4.0 GPA • DISTINCTION

IT Systems Development
CREATIVE & TECHNOLOGY UNIVERSITAS
COMPLETE NOVEMBER 2024
4.0 GPA • DISTINCTION

SKILLS & COMPETENCIES

LANGUAGES	Java 10, Python, JavaScript (ES6+), TypeScript, SQL, PHP
FRONTEND	React.js, Next.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Framer Motion, Flutter (Dart)
BACKEND	Node.js, Django, Flask, Spring Boot
DATABASES	MongoDB, PostgreSQL, MySQL, SQL Server, Supabase
DEVOPS & CLOUD	Azure, AWS, Docker, Git, Azure DevOps, GitHub
APIS & TOOLS	RESTful APIs, GraphQL, Resend (Email API), Postman, Android Studio, VS Code
TESTING & ARCHITECTURE	Jest, Strapi, TDD, Maven, Ant, Gradle, Microservices, IoC, Serverless

CERTIFICATIONS

MICROSOFT	Developing Solutions for Microsoft Azure	PEARSON VUE	IT Specialist JavaScript
MICROSOFT	Implement Secure Azure Solutions	PEARSON VUE	IT Specialist HTML & CSS
MICROSOFT	Azure Data Fundamentals	CISCO	Python Essentials 1
MICROSOFT	Implement API Management
